

# Leaving A Lasting Legacy

Al (Allie) Kittel's Creations

3 February 2025 – [www.spibr.org/legacy.pdf](http://www.spibr.org/legacy.pdf)

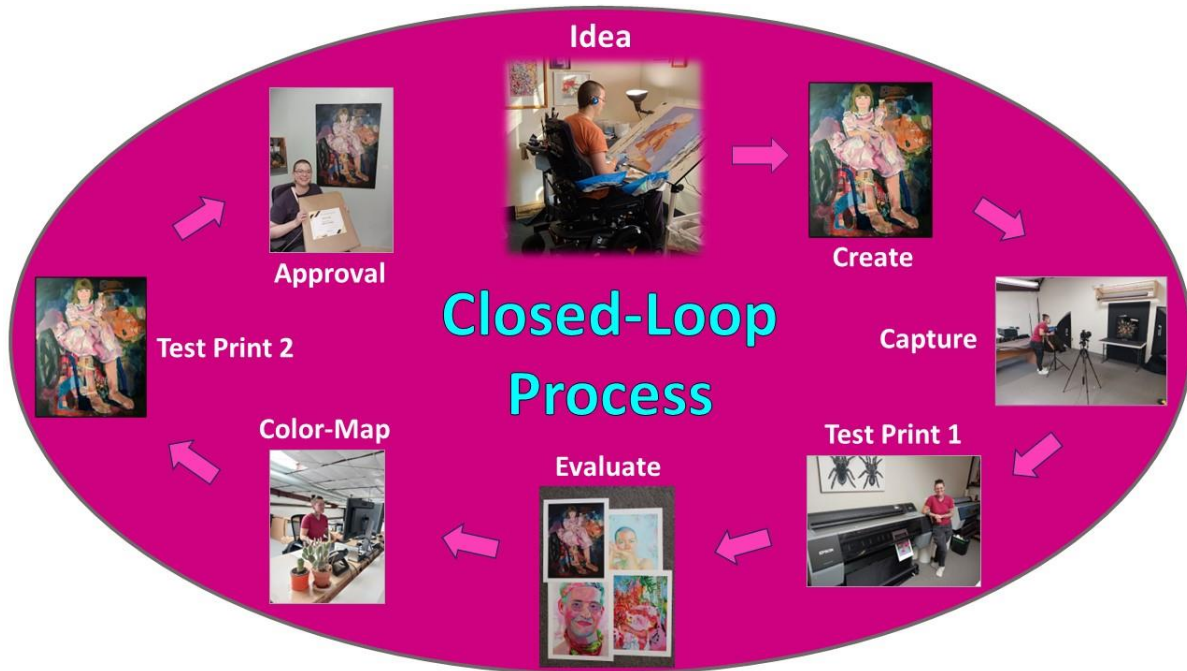

## AL REDEFINES LEGACY

Allie Kittel had a progressive neuromuscular disorder, [Friedreich's Ataxia](#), which shortened her life to 32 years. Nonetheless, she *has* left a lasting legacy – her [artistic creations](#) (archival prints of her paintings).

## A LONG-LASTING, HIGH-QUALITY LEGACY

Her prints are expected to last 100 years, given they are printed on an acid-free 100% cotton cold-pressed material (not wood-based paper), using archival inks (12 different colors + 2 versions of black).

The printing company ([Graphic Sky Printing](#) in Santa Fe, NM) is the “go to printer” for serious painters, like Al. This summarizes the exceptional, methodical process used for each painting-to-print creation.

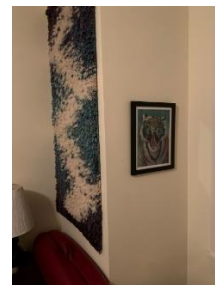

## SHE BLESSES HOMES

Allie painted from her heart. Therefore, her creations touch other hearts and they bless homes.

Here are two examples from the homes of dear friends, Hanoch and Meg:

*Yellow Trees | Tiger Mantis*

## A FINANCIAL LEGACY

\$10 from the sale of each book and each print will be donated to [Rights of Passage](#).
